

HSK-5008L

e-SCOPE

- Portable, non-contact electrostatic image system
- Monitor static in real time

- Measure charge distribution for all products
- Monitor static on production lines and workers

Monitor Static Electricity

Hanwa Electronic Ind. Co.,Ltd.

Pioneer [Electrostatic Discharge Test System]

Features

- Eight sensors
- Measurement area: 100×10mm
- LED display
- PC interface
- Three modes: Value mode, Visual mode and Graph mode
(Positive shows Red / Negative shows Blue / Gradation shows the amount of charge)
- Charge distribution
- Portable type, light and easy to bring anywhere

High accuracy

Measurement accuracy: Max.5kV, ±10%(Measurement distance:30mm)
Max.2kV, ±10%(Measurement distance:10mm)

Value Mode

Visual Mode

Graph Mode

Overview

OS: Windows 7/8
Dimensions (mm): H280×W47×D70
Weight: approx.160g
