

HSK-V5000B series e-SCOPE

Monitor Static Electricity

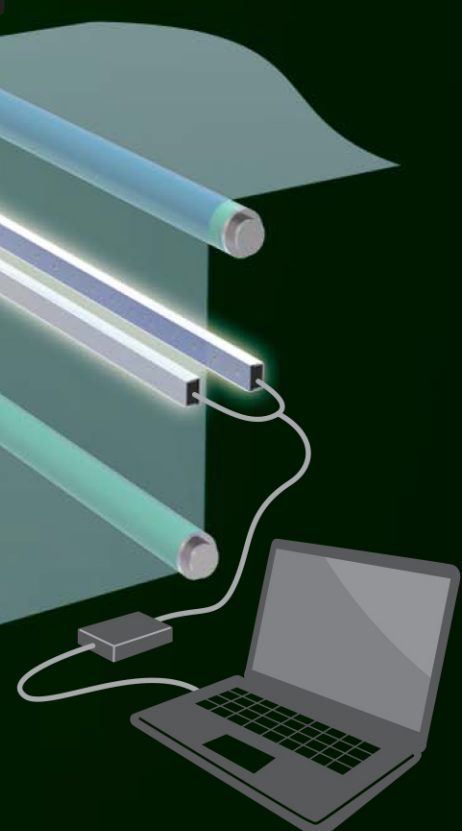

- Available to auto-measure charging widely: film or panel
- Bar type, non-contact electrostatic image system
- Monitor static in real time

- Measure charge distribution for all products
- Monitor static on production lines and workers
- Any customization is available

Hanwa Electronic Ind. Co.,Ltd.

Pioneer [Electrostatic Discharge Test System]

Continuous measurement at wide area

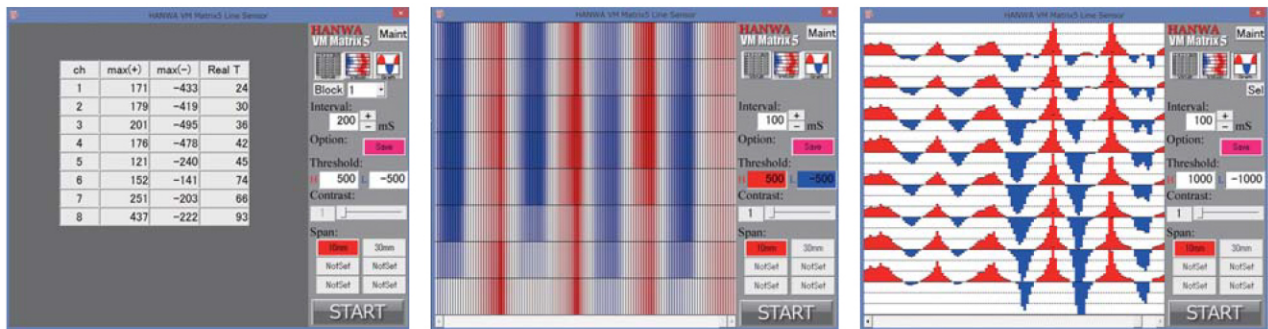

You can see where static occurs in real time.
 HSK-V5000B contains various variations.
 This device can correspond to any customs.
 【Customization items】

Type name	The number of sensors	Sensor pitch (mm)	Measurement range (mm)	Interval	Measurement accuracy	Save
V5008B25P	8	25	200	100ms~2550ms	Max 10kV,±10% Measurement distance 100mm Max 5kV,±10% Measurement distance 50mm Max 2.5kV,±10% Measurement distance 25mm	CSV
V5004B100P	4	100	400			
V5008B50P	8	50	400			
V5016B25P	16	25	400			
V5008B100P	8	100	800			
V5016B50P	16	50	800			
V5032B25P	32	25	800			
V5008B150P	8	150	1200			
V5012B100P	12	100	1200			
V5024B50P	24	50	1200			
V5048B25P	48	25	1200			

Three modes to monitor Static electricity in real time

PC interface is included.
 (Positive shows Red / Negative shows Blue / Gradation shows the amount of charge)

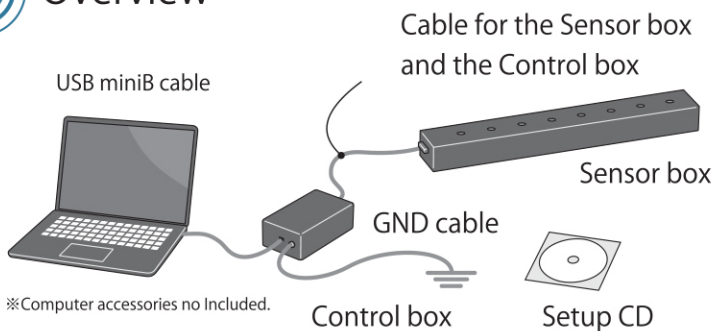

Value Mode

Visual Mode

Graph Mode

Overview

Basic unit

1. Sensor box
2. Control box
3. Cable for the Sensor box and the Control box
4. USB miniB cable
5. GND cable
6. Setup CD
7. Case for HSK-V5000B
